## Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

You must have Adobe Acrobat Reader 8.0 or above installed to use the features on this form.

### for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

*This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.*

Report Period: From March, 2019 To March, 2020

Permit No. ILR40 0301

#### MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: Village of Bridgeview Mailing Address 1: 7500 S. Oketo Avenue  
Mailing Address 2: County: Cook  
City: Bridgeview State: IL Zip: 60455 Telephone: 708-594-2525  
Contact Person: William Green Email Address: wgreen@villageofbridgeview.com  
(Person responsible for Annual Report)

#### Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

Cook County

#### THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

- |   |  |
|---|--|
| 1. Public Education and Outreach <input type="checkbox"/>             | 4. Construction Site Runoff Control <input type="checkbox"/>       |
| 2. Public Participation/Involvement <input type="checkbox"/>          | 5. Post-Construction Runoff Control <input type="checkbox"/>       |
| 3. Illicit Discharge Detection & Elimination <input type="checkbox"/> | 6. Pollution Prevention/Good Housekeeping <input type="checkbox"/> |

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

**Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))**

Village of Bridgeview, NPDES Permit No. ILR40 0301  
**Annual Facility Inspection Report - Supplemental Information**  
March 2019 to March 2020  
May 22, 2020

**Item A: Description of Changes to BMPs**

The following changes have been made in Village BMPs for the next reporting cycle:

No changes this cycle. The Village last updated its Storm Water Management Program (SWMP) on 5/17/19 with some minor revisions and corrections.

**Item B: Status of compliance with permit conditions  
and assessment of minimum control measures**

The Village believes that the BMPs completed within the reporting period are appropriate for the permit conditions. The status of each BMP is as follows:

**A. Public Education and Outreach**

**1. A1: Distributed Paper Material (Newsletter)**

The Village's Newsletter has been used to reach out to residents and businesses about a variety of topics (see enclosed samples). Articles or information appear several times throughout the cycle. Several sample newsletters are included highlighting village cleanup days. *Newsletters allow for "fair" access and are available to all in the community.*

**2. A4: Community Events (Annual Cleanup Days)**

The Village held its twice annual Village-wide Cleanup Days in the spring (April 27 & May 4, 2019) and fall (September 21 & 28) of 2019. All residents can participate so this is offered "fairly" to all in the community. The next cleanup days are scheduled for April and September 2020. See enclosed newsletter information. This BMP coincides with BMP B7.

**3. A6: Other Public Education (Website)**

The Village Website is used to post information for Public Works throughout the reporting cycle (samples enclosed).

## **B. Public Participation and Involvement**

### **4. B4: Public Hearing (Meeting)**

The Village last held an informational Public Hearing during the previous reporting cycle on March 20, 2019. At this meeting, the status of the Village's compliance with NPDES Phase II was reported. The next public meeting is planned for the next reporting cycle.

### **5. B7: Other Public Involvement (Annual Cleanup Day)**

The Village held its twice annual Village-wide Cleanup Days in the spring (April 27 & May 4, 2019) and fall (September 21 & 28) of 2019. All residents can participate so this is offered "fairly" to all in the community. The next cleanup days are scheduled for April 2020 and September 2020. See enclosed newsletter information. This BMP coincides with BMP A4.

## **C. Illicit Discharge Detection and Elimination**

### **6. C1: Storm Sewer Map Preparation**

The Village has an up-to-date Storm Sewer Map on which the outfalls are numbered, and storm sewer sizes are included with lengths to scale. The map was not updated during the cycle but will be reviewed during the next for possible updates.

### **7. C2: Regulatory Control Program (Ordinance)**

The Village has an ordinance (Article 13) related to Illicit Discharge Detection and Elimination and relies on a similar ordinance available from the Metropolitan Water Reclamation District of Greater Chicago (MWRD) for enforcement.

### **8. C7: Visual Dry Weather Screening**

The Village deferred dry weather Outfall Inspections of its outfalls during the reporting cycle. No problem outfalls were reported. The inspections are planned for the next cycle.

### **9. C10: Other Illicit Discharge Controls (Visual Monitoring Inspections)**

Since the Village population is under 25,000, it has opted for visual monitoring of its upstream and downstream watercourse locations. Visual Monitoring Inspections at upstream and downstream locations were not performed during the reporting cycle. The goal is to conduct these inspections in the future.

## **D. Construction Site Runoff Control**

### **10. D1: Regulatory Control Program (Ordinance)**

There have been no changes to the codes during this cycle, but the Village continues to enforce its regulatory control program for construction site runoff control. Village Ordinance #6-19 provides for Erosion and Sediment Control. Also, Article 4 of the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1,

2014, is used to enforce soil erosion and sediment control requirements with development.

**11. D2: Erosion and Sediment Control BMPs**

Erosion and Sediment Control BMP's are required for all developments that exceed one acre in size.

**12. D4: Site Plan Review Procedures**

Development projects are reviewed under local and District ordinances by Village Staff and engineering consultants, especially regarding stormwater and erosion and sediment control measures. Projects over one acre are required to obtain a Notice of Intent prior to construction. A SWPPP is required with plan sets. Robinson Engineering performs Plan Reviews for the Village as they become necessary. The Village requires Weekly inspection reports from developers of active projects. The Village performs audit inspections as needed. The following plan reviews were conducted during the reporting cycle:

- 8540 S. Thomas Avenue – Gerhard Design & Manufacturing
- 8801 S. Harlem Avenue – Southfield Plaza
- 8115 S. Harlem Avenue – Panera
- 8001 S. 82<sup>nd</sup> Avenue – Wilkins Elementary School
- 7735 S. Harlem Avenue – Q-Ball Pool Hall
- 7731 S. Harlem Avenue – Military Recruiting Office
- Premier Industrial Development

**13. D6: Site Inspection/Enforcement Procedures**

Weekly inspection reports are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed. The Village performs audit inspections as needed.

**E. Post-Construction Runoff Control**

**14. E2: Regulatory Control Program (Ordinance)**

There have been no changes to the codes during this cycle, but the Village continues to enforce its regulatory control program for post construction runoff control. Village Ordinance #6-20 provides for Post Construction Storm Water Runoff Control. Also, Article 4 of the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1, 2014, is used to enforce soil erosion and sediment control requirements with development.

**15. E3: Long Term O&M Procedures**

These are required and reviewed where applicable during the site plan review process and implemented post construction. A controlled burn is planned for the 2020 cycle at a stormwater facility within the SeatGeek Stadium property. This promotes healthy natural vegetation and wetland plantings.

**16. E4: Pre-Construction Review of BMP Designs**

The ordinance requirements are enforced during the site plan review stage of a development. The site plan reviews include a review of the BMP designs.

**17. E5: Site Inspections During Construction**

Weekly inspection reports are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed.

**18. E6: Post-Construction Inspections**

Stormwater management systems are inspected during the year depending on staff availability. Inspected storm sewers and structures that are found to need maintenance are cleaned, vacuumed, or jetted as needed.

**F. Pollution Prevention and Good Housekeeping**

**19. F1: Employee Training Program**

The goal is to conduct at least one training session per reporting cycle. The Public Works staff typically discusses proper procedures for salt storage and spreading, snow plowing, disposal of oil, and handling of solvents. Snow plowing, and deicing practices are reviewed annually. Training on snowplowing and salt spreading is typically conducted in November of each year; however, due to an early snowfall, salting training and review took place in October 2019.

**20. F2: The Inspection and Maintenance Program**

The inspection and maintenance programs include Routine maintenance of Village streets, storm sewers, ditches, and stormwater facilities as part of the Public Works responsibilities. This includes sweeping, vacuuming, jetting, repair, debris and branch and leaf collection, etc.

- Deicing materials are stored in a permanent facility.
- All fertilizers, pesticides, or other chemicals are stored indoors.
- a. Street-sweeping was performed in April through October of the reporting period.
- b. Catch Basins are cleaned yearly during the reporting period. The Village has cleaned all catch basins at least once during the reporting cycle.
- c. Storm Sewers are inspected and cleaned on an as needed basis during the reporting cycle.
- d. Snow Plowing and Deicing of roadways was conducted during the cold weather months. This is performed on a yearly basis. The season began in October 2019 with an early snowfall.
- e. Branch Chipper is used throughout the spring, summer and fall months throughout the Village on a yearly basis.

**21. F3 and F4: Municipal Operations Storm Water Control and Waste Disposal**

For Municipal Operations Storm Water Control, the Village completed in 2011 a SWPPP and Spill Response Plan for its Maintenance Yard and Operations. The plans did not require any updates during the reporting cycle.

**22. F5: Flood Management/Assessment Guidelines**

The Village code includes Flood Regulations which enforce floodplain and flood hazard regulations for any development in or near to floodplains. Reviews for such development are handled by Robinson Engineering.

**Item C:** Results of information collected and analyzed, monitoring data (if any).

Since the Village deferred its outfall inspections, it also did not perform any visual Monitoring Inspections at upstream and downstream locations. No chemical samples were taken.

***The U.S. Census Bureau data for the Village of Bridgeview demographics is:***

<b><i>2016 Estimated Population</i></b>	<b><i>16,248</i></b>
<b><i>Poverty Percentage</i></b>	<b><i>20.3%</i></b>
<b><i>White Pop. Percentage</i></b>	<b><i>76.5%</i></b>
<b><i>Hispanic Pop. Percentage</i></b>	<b><i>15.7%</i></b>
<b><i>Asian Pop. Percentage</i></b>	<b><i>3.1%</i></b>
<b><i>Black Pop. Percentage</i></b>	<b><i>2.9%</i></b>
<b><i>Two or more Races Pop. Percentage</i></b>	<b><i>2.8%</i></b>
<b><i>Other Pop. Percentage</i></b>	<b><i>0.2%</i></b>

**Item D:** Summary of stormwater activities you plan to undertake during the next reporting cycle (and implementation schedule).

See the attached Summary that is numbered to correspond with the original Notice of Intent.

**Item E:** Notice that you are relying on another governmental entity to satisfy some of your permit obligations (if applicable).

Not applicable. The Village of Bridgeview does not rely on another governmental entity to satisfy NPDES permit obligations currently.

**Item F:** List of construction projects that your entity has paid for during the reporting period.

The following is a list of contracts that the Village let and constructed during this reporting period:

- None this reporting period.

### Sample Documentation for Minimum Control Measures

The remaining sheets in this report include some available documentation for various Best Management Practices discussed under Item B.

September 2019

## TREASURE Days

**SEPT. 7-8** SOUTH OF 79TH ST. **SEPT. 14-15** NORTH OF 79TH ST.

Treasure Days will be Sept. 7 & 8 South of 79th Street, and Sept. 14 & 15 North of 79th Street. The times are 8 a.m. to 3 p.m. each day.

"You can sell your treasures in our village-wide garage sale," Trustee Norma Pinion said. The "treasures" in question are in the eye of the buyer and the seller. One never knows what one may find at a garage sale.

Residents can pick up a registration form at the Village Hall, 7500 Oketo Ave. After you register, you will receive a bright pink cover to place over your mailbox during Treasure Days. That pink mailbox cover tells passersby that the sale there is part of Treasure Days.

The deadline to register is Wednesday Sept. 4. There is no fee charged to participate. The sale of food is not permitted. Trustees Michael Pticek and Norma Pinion will be cruising up and down village streets on a pirate ship float handing out candy.

# FALL

## *Clean Up*

SEPT. 21st & 28th

Fall is just around the corner, and that means Bridgeview is getting ready for the Annual Fall Cleanup Days.

Rid outdoor areas, garages, attics and basement of old lumber, unused furniture, brick piles, old equipment and any other debris that might be taking up space on your property for these village-wide cleanup days. Get ready to start the winter with a clean and cozy home!

Keeping your house clean is not only beneficial for you as an individual homeowner, it also helps maintain a clean, rodent-free community. Living in a community imposes on us certain responsibilities. Keeping your village clean is on among them. It is the duty of each and every person to ensure that his or her surroundings are hygienic and safe for our children and pets.

**This year residents who have garbage pickup on Mondays will have their Cleanup**

**Day on Saturday, Sept. 21. Residents whose garbage is picked up on Tuesdays will have their Fall Cleanup Day on Saturday, Sept. 28.**

Acceptable items include, but are not limited to: furniture, tires and rims, sinks and toilets, building scraps, cinder blocks and tree logs. If you have any non-bulk items, they must be bagged or boxed for them to be acceptable for pickup.

Hazardous waste will not be picked up, and any fluids from lawn mowers, refrigerators, freezers or any other similar appliance or machine must be drained. Paint must be dried up, which can be done by mixing it with kitty litter.

Items need to be curbside by 6 a.m. ON your designated pickup day.

The Village of Bridgeview is serious about keeping Bridgeview clean. Working together we will continue to keep Bridgeview a great place to live!

# Bridgeview Spring Clean-Up Days April 27 and May 4

**JAMES CECOTT**

Chairman of the Public Works Committee, Trustee James Cecott, just announced April 27th and May 4th as the spring cleanup days for Bridgeview.

Spring is just around the corner and that means Bridgeview is ready for the spring Cleanup days!! Rid outdoor

areas, garages, attics and basements of old lumber, unused furniture, brick piles, old equipment and any other debris that might be taking up space on our property. Get ready to start the spring with a clean and cozy home !!

Keeping your house clean is not only beneficial for you as an individual homeowner; it also helps maintain a clean, rodent free community. Living in a community imposes on us certain responsibilities. Keeping your village clean is one among them.

This year residents who have garbage picked up on Mondays will have their cleanup day on Saturday April 27th. Residents whose garbage is picked up on Tuesday will have their spring Cleanup Day on Saturday May 4th.

Items that can be picked up include, but are not limited to: furniture, tires and

rims, sinks, toilets, building scraps, cinder blocks, and tree logs. If you have any non-bulk items, they must be bagged or boxed for them to be acceptable for pick up.

Hazardous waste will not be picked up and any fluids from lawn mowers, freezers or any appliance must be drained. Paint must be dried up which can be done by

mixing it with kitty litter.

As a reminder, items need to be on curbside by 6a.m. ON your designated pickup day.

The Village of Bridgeview is serious about keeping Bridgeview clean. Working together we will continue to keep Bridgeview a great place to live!!

## BRIDGEVIEW CLEAN UP DAYS ARE COMING!

### SPRING CLEAN UP DAY SCHEDULE

**April 25th**

Bridgeview NORTH of 79th Street

**May 2nd**

Bridgeview SOUTH of 79th Street

**ITEMS MUST BE PLACED OUTSIDE BY 6AM ON PICKUP DAY**

We have all learned about the importance of personal hygiene in the fight against Covid-19 Corona Virus. Prevention measures are very, very important for your personal health. Whether it is cleaning and sanitizing your house, or using face masks and gloves, good hygiene makes a difference!!

The inside of your house is not the only place to practice cleanliness. The outside of your house is also important in the prevention of rodents, insect pests, smells and unsightly piles of trash. **Bridgeview Clean Up Days** are held twice per year, once in the spring and once in the fall. As we face our "stay at home order", let's take the time to practice those clean up skills on the outside of the house.

So, inside and out, clean it up and place it on the curb!! Your neighbors will appreciate the clean-up, and all of our home values are improved by the cleanliness of our community.

## 2020 SPRING CLEAN UP DAYS

Time has come for Bridgeview's Annual Spring Clean Up Days. We have all learned about the importance of personal hygiene in the Fight against the COVID-19 virus. Prevention measures are very important for your personal health. Whether it is cleaning and sanitizing your house, or using face masks and gloves, good hygiene makes a difference!!

the inside of your house is not the only place to practice cleanliness. The outside of your house is also important in the prevention of rodents, insect pests, smells and unsightly piles of trash. Bridgeview Cleanup Days are held twice a year, once in the spring and once in the fall. As we face our "stay at home order," let's take the time to practice those clean up skills in both the inside and outside of our homes.

Clean up days offer Village residents a chance to get rid of those items they no longer want or need that are taking up space around their houses. Just take those items and place them on the curb! Your neighbors will appreciate the clean-up, and our home values are improved by the cleanliness or our community.

### SCHEDULE:

Please have all items for pickup placed on the curb by 6:00am on your day of pickup.

**April 25:** **For Residents who live NORTH of 79th Street.**

**May 2:** **For Residents who live SOUTH of 79th Street.**

Acceptable items include, but are not limited to:

- Furniture
- Tires and Rims
- Sinks and Toilets
- Building Material Scraps
- Cinder Blocks
- Tree Logs

### Special Items:

- Hazardous Waste will NOT be accepted
- Fluids from Lawn mowers and other machines must be fully drained.
- Fluids from appliances, as necessary, must also be removed.
- Paints must be dried out. (You can mix kitty litter into the paint to dry it out.)

Non-bulk items should be bagged or boxed for them to be picked up.

The Village of Bridgeview is serious about keeping Bridgeview clean. Working together we will continue to keep Bridgeview a great place to live!

**CORONAVIRUS (COVID-19) UPDATES & INFORMATION**

Village buildings remain open to assist all residents and businesses. Our Fire and Police Departments remain fully staffed and are on standby.

## Bridgeview Public Works Department

The Bridgeview Public Works Department provides municipal services in several areas. They maintain our village streets, water and sewer systems, village vehicles and public buildings, and branch chipping. During warm weather, they also handle mosquito abatement duties.

7500 S. Oketo Ave • Bridgeview, IL 60455 Customer Service: 708-594-2525 [S](#)

**IMPORTANT NOTE:**

Before digging on your property, be sure to call JULIE at 811, to locate underground utilities and avoid serious problems or a disaster.

**Village Streets**

- Public Works Department operates their street cleaning equipment when weather permits.
- No trash containers are allowed in the streets at any time.
- Property owners should keep grass clippings and leaves from accumulating in the streets and along curbs.
- No parking is allowed on village streets when there is an accumulation of snow 1" or greater. The Public Works Department will dispatch their snow removal crew at this time.
- Residents should not deposit snow in the streets, as this creates a safety hazard for motorists and inhibits snow removal efforts.

**Water and Sewer System**

It is extremely important to keep our STORM SEWERS clean. No one is to pour oil, nor any other materials down the sewer drains. It is also important to keep leaves and grass clippings out of the sewers.

If you notice surface water flowing out of the street, sidewalk or ground, report the problem and location to the Bridgeview Customer Service at 594-2525 or call 9-1-1 after office hours.

**SUMP PUMPS**

- Sump pumps are not to pump water directly into storm sewers.
- Sump pumps cannot be connected to sanitary sewers.
- Hoses connected to sump pumps are to be no longer than 10' from the building.

**Branch Chipper Service**

Bridgeview Public Works offers a branch pick-up/chipping service free to village residents for branches longer than 4 ft. Put these branches with the cut side facing the street. Do NOT bundle them.

**Weekly Chipper Schedule:**

- Monday: Areas WEST of the train tracks
- Wednesday: Areas EAST of the train tracks and NORTH of 87th Street
- Friday: Areas EAST of the train tracks and SOUTH of 87th Street

If you have any additional questions, call Bridgeview Community Services at 708-594-2525 [S](#)
