RE: Village of Bridgeview
NPDES Permit MS4 Annual Report – *Reporting Cycle 2020-2021*
Permit No. ILR40 – 0301

Dear Sir/Madam:

Enclosed please find the following items regarding the NPDES Permit for Storm Water Discharges from Municipal Separate Storm Sewer Systems (MS4) for the Village of Bridgeview:

- MS4 Annual Facility Inspection Report for 2020-2021
- Attachment 1 (summarizing status of Minimum Control Measures)
- Summary and Schedule of Proposed Best Management Practices
- Various Attachments supporting Minimum Control Measures

This documentation has also been emailed to epa.ms4annualinsp@illinois.gov. If you have any questions, please call me at (708) 210-5678.

Very truly yours,

ROBINSON ENGINEERING, LTD.

Jonathan J. Dykstra, CFM
Senior Water Resources Engineer

Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.

Report Period: From March, 2020 To March, 2021

Permit No. ILR40 0301

MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: Village of Bridgeview Mailing Address 1: 7500 S. Oketo Avenue
Mailing Address 2: _____ County: Cook
City: Bridgeview State: IL Zip: 60455 Telephone: 708-496-6793
Contact Person: William Green Email Address: wgreen@villageofbridgeview.com
(Person responsible for Annual Report)

Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

Cook County

THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

- | | |
|---|--|
| 1. Public Education and Outreach <input type="checkbox"/> | 4. Construction Site Runoff Control <input type="checkbox"/> |
| 2. Public Participation/Involvement <input type="checkbox"/> | 5. Post-Construction Runoff Control <input type="checkbox"/> |
| 3. Illicit Discharge Detection & Elimination <input type="checkbox"/> | 6. Pollution Prevention/Good Housekeeping <input type="checkbox"/> |

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

Village of Bridgeview, NPDES Permit No. ILR40 0301
Annual Facility Inspection Report - Supplemental Information
March 2020 to March 2021
May 28, 2021

Item A: Description of Changes to BMPs

The following changes have been made in Village BMPs for the next reporting cycle:

No changes this cycle. The Village last updated its Storm Water Management Program (SWMP) on 5/17/19 with some minor revisions and corrections.

**Item B: Status of compliance with permit conditions
and assessment of minimum control measures**

The Village believes that the BMPs completed within the reporting period are appropriate for the permit conditions. The status of each BMP is as follows:

A. Public Education and Outreach

1. A1: Distributed Paper Material (Newsletter)

The Village's Newsletter has been used to reach out to residents and businesses about a variety of topics (see enclosed samples). Articles or information appear several times throughout the cycle. Several sample newsletters are included highlighting village cleanup days. *Newsletters allow for "fair" access and are available to all in the community.*

2. A4: Community Events (Annual Cleanup Days)

The Village held its twice annual Village-wide Cleanup Days in the spring (April 25 & May 2) and fall (September 21 & 28) of 2020. All residents can participate so this is offered "fairly" to all in the community. The next cleanup days are scheduled for May and October 2021. See enclosed newsletter information. This BMP coincides with BMP B7.

3. A6: Other Public Education (Website)

The Village Website is used to post information for Public Works throughout the reporting cycle (samples enclosed).

B. Public Participation and Involvement

4. B4: Public Hearing (Meeting)

The Village last held an informational Public Hearing during the previous reporting cycle on March 3, 2021. At this meeting, the status of the Village's compliance with NPDES Phase II was reported. The next public meeting is planned for the next reporting cycle.

5. B7: Other Public Involvement (Annual Cleanup Day)

The Village held its twice annual Village-wide Cleanup Days in the spring (April 25 & May 2) and fall (September 21 & 28) of 2020. All residents can participate so this is offered "fairly" to all in the community. The next cleanup days are scheduled for May 2021 and October 2021. See enclosed newsletter information. This BMP coincides with BMP A4.

C. Illicit Discharge Detection and Elimination

6. C1: Storm Sewer Map Preparation

The Village has an up-to-date Storm Sewer Map on which the outfalls are numbered, and storm sewer sizes are included with lengths to scale. The map was not updated during the cycle but will be reviewed during the next for possible updates.

7. C2: Regulatory Control Program (Ordinance)

The Village has an ordinance (Article 13) related to Illicit Discharge Detection and Elimination and relies on a similar ordinance available from the Metropolitan Water Reclamation District of Greater Chicago (MWRD) for enforcement.

8. C7: Visual Dry Weather Screening

The Village deferred dry weather Outfall Inspections of its outfalls during the reporting cycle. No problem outfalls were reported. The inspections are planned for the next cycle.

9. C10: Other Illicit Discharge Controls (Visual Monitoring Inspections)

Since the Village population is under 25,000, it has opted for visual monitoring of its upstream and downstream watercourse locations. Visual Monitoring Inspections at upstream and downstream locations were not performed during the reporting cycle. The goal is to conduct these inspections in the future.

D. Construction Site Runoff Control

10. D1: Regulatory Control Program (Ordinance)

There have been no changes to the codes during this cycle, but the Village continues to enforce its regulatory control program for construction site runoff control. Village Ordinance #6-19 provides for Erosion and Sediment Control. Also, Article 4 of the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1, 2014, is used to enforce soil erosion and sediment control requirements with development.

11. D2: Erosion and Sediment Control BMPs

Erosion and Sediment Control BMP's are required for all developments that exceed one acre in size.

12. D4: Site Plan Review Procedures

Development projects are reviewed under local and District ordinances by Village Staff and engineering consultants, especially regarding stormwater and erosion and sediment control measures. Projects over one acre are required to obtain a Notice of Intent prior to construction. A SWPPP is required with plan sets. Robinson Engineering performs Plan Reviews for the Village as they become necessary. The Village requires Weekly inspection reports from developers of active projects. The Village performs audit inspections as needed. The following plan reviews were conducted during the reporting cycle:

- 7350 W. 103rd Street - Advance
- 8001 S. 82nd Avenue – Wilkins Elementary School
- 84th Place and Harlem Avenue
- 7557 S. 78th Avenue – Parking Lot

13. D6: Site Inspection/Enforcement Procedures

Weekly inspection reports are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed. The Village performs audit inspections as needed.

E. Post-Construction Runoff Control

14. E2: Regulatory Control Program (Ordinance)

There have been no changes to the codes during this cycle, but the Village continues to enforce its regulatory control program for post construction runoff control. Village Ordinance #6-20 provides for Post Construction Storm Water Runoff Control. Also, Article 4 of the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1, 2014, is used to enforce soil erosion and sediment control requirements with development.

15. E3: Long Term O&M Procedures

These are required and reviewed where applicable during the site plan review process and implemented post construction. Controlled burns were performed in December 2020 at the Lucas Ditch and 87th Beloit retention ponds and in March 2021 at the Bridgeview Court Nature Area. This promotes healthy natural vegetation and wetland plantings.

16. E4: Pre-Construction Review of BMP Designs

The ordinance requirements are enforced during the site plan review stage of a development. The site plan reviews include a review of the BMP designs.

17. E5: Site Inspections During Construction

Weekly inspection reports are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed.

18. E6: Post-Construction Inspections

Stormwater management systems are inspected during the year depending on staff availability. Inspected storm sewers and structures that are found to need maintenance are cleaned, vacuumed, or jetted as needed.

F. Pollution Prevention and Good Housekeeping

19. F1: Employee Training Program

The goal is to conduct at least one training session per reporting cycle. The Public Works staff typically discusses proper procedures for salt storage and spreading, snow plowing, disposal of oil, and handling of solvents. Snow plowing, and deicing practices are reviewed annually. Training on snowplowing and salt spreading is typically conducted in November of each year.

20. F2: The Inspection and Maintenance Program

The inspection and maintenance programs include Routine maintenance of Village streets, storm sewers, ditches, and stormwater facilities as part of the Public Works responsibilities. This includes sweeping, vacuuming, jetting, repair, debris and branch and leaf collection, etc.

- Deicing materials are stored in a permanent facility.
- All fertilizers, pesticides, or other chemicals are stored indoors.
- a. Street-sweeping was performed in April through October of the reporting period.
- b. Catch Basins are cleaned yearly during the reporting period. The Village has cleaned all catch basins at least once during the reporting cycle.
- c. Storm Sewers are inspected and cleaned on an as needed basis during the reporting cycle.
- d. Snow Plowing and Deicing of roadways was conducted during the cold weather months. This is performed on a yearly basis. The season began in October 2020 with an early snowfall.
- e. Branch Chipper is used throughout the spring, summer and fall months throughout the Village on a yearly basis.

21. F3 and F4: Municipal Operations Storm Water Control and Waste Disposal

For Municipal Operations Storm Water Control, the Village completed in 2011 a SWPPP and Spill Response Plan for its Maintenance Yard and Operations. The plans did not require any updates during the reporting cycle.

22. F5: Flood Management/Assessment Guidelines

The Village code includes Flood Regulations which enforce floodplain and flood hazard regulations for any development in or near to floodplains. Reviews for such development are handled by Robinson Engineering.

Item C: Results of information collected and analyzed, monitoring data (if any).

Since the Village deferred its outfall inspections, it also did not perform any visual Monitoring Inspections at upstream and downstream locations. No chemical samples were taken.

The U.S. Census Bureau data for the Village of Bridgeview demographics is:

2016 Estimated Population	16,248
Poverty Percentage	20.3%
White Pop. Percentage	76.5%
Hispanic Pop. Percentage	15.7%
Asian Pop. Percentage	3.1%
Black Pop. Percentage	2.9%
Two or more Races Pop. Percentage	2.8%
Other Pop. Percentage	0.2%

Item D: Summary of stormwater activities you plan to undertake during the next reporting cycle (and implementation schedule).

See the attached Summary that is numbered to correspond with the original Notice of Intent.

Item E: Notice that you are relying on another governmental entity to satisfy some of your permit obligations (if applicable).

Not applicable. The Village of Bridgeview does not rely on another governmental entity to satisfy NPDES permit obligations currently.

Item F: List of construction projects that your entity has paid for during the reporting period.

The following is a list of contracts that the Village let and constructed during this reporting period:

- None this reporting period.

Sample Documentation for Minimum Control Measures

The remaining sheets in this report include some available documentation for various Best Management Practices discussed under Item B.

BRIDGEVIEW CLEAN UP DAYS ARE COMING!

SPRING CLEAN UP DAY SCHEDULE

April 25th

Bridgeview NORTH of 79th Street

May 2nd

Bridgeview SOUTH of 79th Street

ITEMS MUST BE PLACED OUTSIDE BY 6AM ON PICKUP DAY

We have all learned about the importance of personal hygiene in the fight against Covid-19 Corona Virus. Prevention measures are very, very important for your personal health. Whether it is cleaning and sanitizing your house, or using face masks and gloves, good hygiene makes a difference!!

The inside of your house is not the only place to practice cleanliness. The outside of your house is also important in the prevention of rodents, insect pests, smells and unsightly piles of trash. **Bridgeview Clean Up Days** are held twice per year, once in the spring and once in the fall. As we face our "stay at home order", let's take the time to practice those clean up skills on the outside of the house.

So, inside and out, clean it up and place it on the curb!! Your neighbors will appreciate the clean-up, and all of our home values are improved by the cleanliness of our community.

For more information please visit www.bridgeview-il.gov

VILLAGE OF BRIDGEVIEW

7500 South Oketo Ave.

Bridgeview, IL 60455

FALL *Clean Up* SEPT. 21st & 28th

Fall is just around the corner, and that means Bridgeview is getting ready for the Annual Fall Cleanup Days.

Rid outdoor areas, garages, attics and basement of old lumber, unused furniture, brick piles, old equipment and any other debris that might be taking up space on your property for these village-wide cleanup days. Get ready to start the winter with a clean and cozy home!

Keeping your house clean is not only beneficial for you as an individual homeowner, it also helps maintain a clean, rodent-free community. Living in a community imposes on us certain responsibilities. Keeping your village clean is on among them. It is the duty of each and every person to ensure that his or her surroundings are hygienic and safe for our children and pets.

This year residents who have garbage pickup on Mondays will have their Cleanup

Day on Saturday, Sept. 21. Residents whose garbage is picked up on Tuesdays will have their Fall Cleanup Day on Saturday, Sept. 28.

Acceptable items include, but are not limited to: furniture, tires and rims, sinks and toilets, building scraps, cinder blocks and tree logs. If you have any non-bulk items, they must be bagged or boxed for them to be acceptable for pickup.

Hazardous waste will not be picked up, and any fluids from lawn mowers, refrigerators, freezers or any other similar appliance or machine must be drained. Paint must be dried up, which can be done by mixing it with kitty litter.

Items need to be curbside by 6 a.m. ON your designated pickup day.

The Village of Bridgeview is serious about keeping Bridgeview clean. Working together we will continue to keep Bridgeview a great place to live!

2021 VILLAGE CLEN UP DAYS ANNOUNCED

The Village of Bridgeview has announced the dates for our 2021 Village Clean Up Days.

Unlike in years past, 2021 will see the Entire Village participate in Clean Up Day on the same days this Spring and Fall.

The Spring Clean Up Day is Saturday, May 1st. The Fall Clean Up Day will be Saturday, October 2nd.

Bridgeview Clean Up Days are held twice a year. Clean Up Days are a perfect time to get rid of those items we have collected but no longer need, both inside and outside of the house. Just collect those items that are taking up space around the house, and place them by the curb by 6:00am on Clean Up Day.

Taking time to keep the outside of our homes clean helps to prevent rodents, insects, pests, smells and unsightly piles of trash. Keeping our neighborhoods clean helps keep Bridgeview a nice place to live and protects property values.

Acceptable items include the following:

- Tires and Rims
- Sinks and Toilets
- Building Material Scraps
- Cinder Blocks
- Tree Logs

Special Items:

- Hazardous Materials will NOT BE ACCEPTED
- Fluids from Lawn Mowers and other machines must be fully drained
- Fluids from Appliances, as necessary, must also be removed
- Paint must be dried out. (You can mix Kitty Litter into the Paint to dry it out.)

Non-Bulk Items should be bagged or boxed for them to be picked up.

The Village of Bridgeview is serious about keeping Bridgeview clean. Working together we will continue to keep Bridgeview a great place to live!

TRAFFIC ADVISORY FOR MAY 13 AND 14 5/12/2021 11:43:00 AM
Expect Heavy Traffic on Harlem Avenue May 13 and 14.

Bridgeview Public Works Department

The Bridgeview Public Works Department provides municipal services in several areas. They maintain our village streets, water and sewer systems, village vehicles and public buildings, and branch chipping. During warm weather, they also handle mosquito abatement duties.

7500 S. Oketo Ave • Bridgeview, IL 60455 Customer Service: 708-594-2525

IMPORTANT NOTE:

Before digging on your property, be sure to call JULIE at 811, to locate underground utilities and avoid serious problems or a disaster.

Village Streets

- Public Works Department operates their street cleaning equipment when weather permits.
- No trash containers are allowed in the streets at any time.
- Property owners should keep grass clippings and leaves from accumulating in the streets and along curbs.
- No parking is allowed on village streets when there is an accumulation of snow 1" or greater. The Public Works Department will dispatch their snow removal crew at this time.
- Residents should not deposit snow in the streets, as this creates a safety hazard for motorists and inhibits snow removal efforts.

Water and Sewer System

It is extremely important to keep our STORM SEWERS clean.
No one is to pour oil, nor any other materials down the sewer drains.
It is also important to keep leaves and grass clippings out of the sewers.

If you notice surface water flowing out of the street, sidewalk or ground, report the problem and location to the Bridgeview Customer Service at 594-2525 or call 9-1-1 after office hours.

SUMP PUMPS

- Sump pumps are not to pump water directly into storm sewers.
- Sump pumps cannot be connected to sanitary sewers.
- Hoses connected to sump pumps are to be no longer than 10' from the building.

Branch Chipper Service

Bridgeview Public Works offers a branch pick-up/chipping service free to village residents for branches longer than 4 ft. Put these branches with the cut side facing the street. Do NOT bundle them.

Weekly Chipper Schedule:

- Monday: Areas WEST of the train tracks
- Wednesday: Areas EAST of the train tracks and NORTH of 87th Street
- Friday: Areas EAST of the train tracks and SOUTH of 87th Street

If you have any additional questions, call Bridgeview Community Services at 708-594-2525
