Temporary Event Food Permit Application - 2026

THIS FORM MUST BE COMPLETED IN FULL AND SUBMITTED 14 DAYS PRIOR TO THE EVENT

INSTRUCTIONS: PLEASE READ ALL REQUIREMENTS & TYPE (OR) PRINT CLEARLY, INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED

FOOD SAFETY REQUIREMENTS

TEMPORARY FOOD SERVICE EVENT PERMIT GUIDELINES

These guidelines have been prepared to assist you with the application process and to minimize the risk of food borne illness incidents at temporary food service events.

A temporary food service event is a FOOD ESTABLISHMENT that operates for a period of no more than 14 consecutive days in conjunction with a single event or celebration.

This information is not a complete statement of all laws and should not be a substitute for them. Food vendors shall comply with the **FDA 2022 Food Code** as adopted by the Village of Bridgeview. Food vendors may not prepare, process, dispense, store or deliver food until their application has been approved and a license has been issued for temporary food service by the Health inspector of the Village of Bridgeview.

BOOTH

All vehicles intended for service at a temporary event shall be licensed or operate from a shared commissary by agreement (**Page 13 of this application**).

BOOTH

Design your booth with food safety in mind. The ideal booth will have an overhead covering and a level floor. **No cooking equipment or food may be accessible to the public (see also FOOD PROTECTION section pages 1-2)**. Only food workers may be permitted inside – no animals or children. Floors shall be made of concrete, asphalt, tight wood, or other similar cleanable material, except that dirt or gravel floors may be used if graded to preclude the accumulation of liquids and covered with removable, cleanable platforms or duckboards. Food contact surfaces must be smooth, non-porous and easily cleanable. All surfaces of all items must be maintained visibly clean.

FOOD PROTECTION

Food shall be in sound condition, free from spoilage, filth, and other contamination and shall be safe for human consumption. Food shall be obtained from sources that comply with all laws relating to food and food labeling. Use of home prepared or hermetically sealed food which has been processed in a place other than a wholesale food processing establishment is prohibited. All food must be purchased from a licensed wholesaler, grocery store or restaurant. Receipts or invoices must be retained for all food purchased and made available upon request.

Food vendors are prohibited from storing food and/or servicing food service equipment at their homes or other unapproved locations. Food and equipment shall be stored and serviced at a licensed, regulated, and inspected food service establishment, retail food store or commissary. All food must be prepared on site or in a licensed food service establishment and transported to the temporary food service location by a method approved by the Village of Bridgeview. Food cannot be stored, prepared or cooked at home. All vendors must be independently licensed or operate from a shared commissary or shared kitchen. If shared space is intended, page 11 of this document must be signed and notarized.

At all times, including while being stored, prepared, displayed, served, or transported, food shall be protected from potential contamination, including dust, insects, rodents, unclean equipment and utensils, unnecessary handling, coughs and sneezes, possible customer contamination, flooding, drainage, and overhead leakage or overhead drippage from condensation.

Temporary Event Food Permit Application - 2026

THIS FORM MUST BE COMPLETED IN FULL AND SUBMITTED 14 DAYS PRIOR TO THE EVENT

INSTRUCTIONS: PLEASE READ ALL REQUIREMENTS & TYPE (OR) PRINT CLEARLY, INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED

FOOD PROTECTION - Continued

- ▶ Condiments for self-service MUST be dispensed from pumps, squeeze bottles, or packaged product only.
- ▶ Food shall be protected from consumer contamination by the use packaging or by the use of easily cleanable counter, serving line or salad bar protector devices, display cases, or other effective means.
- ▶ Only single service articles shall be provided for use by the consumer and utensils shall be presented HANDLE UP to the consumer for self-service.
- ▶ Storage of all food, single service items, equipment and utensils shall be stored at least 6 inches off the ground and shall be covered to prevent contamination.
- ▶ Employees shall utilize utensils, single use disposable gloves, or other barriers to avoid bare hand contact with ready-to-eat foods. Hand washing must take place prior to putting on gloves.
 - ▷ **Effective January 2023 new law ends the use of "latex" gloves in food preparation, EMS and health care settings to protect consumers with latex allergies (HB209)**
- ▶ Oscillating fans shall be used at outside events for flying insect control.
- ▶ Raw foods must be stored properly to avoid cross contamination of ready-to-eat foods.
- ▶ Frying oil must be clean, fresh, and checked daily to ensure there is no contamination.

PRE-PACKAGED FOODS

Items pre-packaged in advance of sale shall be labeled with the following information in English: 1) The common name of the food, or absent a common name, an adequately descriptive identity statement; 2) If made from two or more ingredients, a list of ingredients and sub-ingredients in descending order of predominance by weight, including a declaration of artificial colors, artificial flavors and chemical preservatives, if contained in the food; 3) An accurate declaration of the net quantity of contents; 4) The name and place of business of the manufacturer, packer, or distributor; and 5) The name of the food source for each major allergen contained in the food unless the food source is already part of the common or usual name of the respective ingredient.

- ▶ All foods that require Time/Temperature Control for Safety (TCS) must be labeled "Keep Refrigerated"

TEMPERATURE CONTROL

All foods that require Time/Temperature Control for Safety (TCS) must be prepared for cooking at the vendor's restaurant or commissary. TCS foods and vegetables must be cleaned and cut in advance of arrival on the event grounds. TCS foods shall be maintained at 41°F or below or 135°F and above after cooking, at all times during transportation, storage, preparation, display and service. A TCS food is defined as any food that requires time/temperature control for safety that consists in whole or in part of:

- | | |
|-------------------------------|--|
| * Meat, poultry and eggs | * Fish, shell fish and crustaceans |
| * Milk and dairy products | * Heat-treated plant food (cooked rice, beans or vegetables) |
| * Baked Potatoes | * Tofu and soy-protein foods |
| * Cut tomatoes and cut melons | * Non-commercially prepared garlic and oil mixtures |
| * Raw seed sprouts | |

The use of temperature log sheets is strongly recommended to verify maintenance of required temperatures.

TCS foods not maintained at required temperatures will be subject to immediate destruction

Temporary Event Food Permit Application - 2026

THIS FORM MUST BE COMPLETED IN FULL AND SUBMITTED 14 DAYS PRIOR TO THE EVENT

INSTRUCTIONS: PLEASE READ ALL REQUIREMENTS & TYPE (OR) PRINT CLEARLY, INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED

MINIMUM COOKING / REHEATING / HOT HOLDING TEMPERATURES

You must have, and utilize, a NSF approved metal stem HOT/COLD food temperature measuring device to check cooking and holding temperatures of foods.

- Fish, (Shell Eggs for immediate service) COOKED TO **145 °F** for 15 seconds.
- GROUND Fish, Beef, Pork, (Shell Eggs Not prepared for immediate service) COOKED TO **155 °F** for 15 seconds.
- Poultry, Stuffed Meats, Stuffed Foods, Stuffing COOKED TO **165 °F**.
- **REHEATING** - food that has been cooked, cooled, and the reheated for hot holding shall be reheated so that all parts of the food reach a temperature of at least **165 °F** for 15 seconds within 2 hours.
- **Hot Holding** after cooking or reheating - minimum **135 °F**.

Mechanical hot holding equipment is strongly recommended to maintain food at required temperatures.

Hot Holding Options: Grills, Ovens, Warmers, Chafing Dishes with Sternos, Steam Tables

Warmers, steam tables and chafing dishes

MAY NOT be used to reheat potentially hazardous foods

LEFT OVER PREPARED FOOD MUST BE DISCARDED AT THE END OF EACH DAY

COLD FOODS

Enough refrigeration facilities or effectively insulated facilities shall be provided to assure the maintenance of Time/Temperature/Control for Safety (TCS) foods at required temperatures of 41 °F or below during storage, and in compliance by on-site inspector testing.

Each mechanically refrigerated storage facility storing time/temperature controlled foods shall be provided with a temperature measuring device which is clearly visible and in good working condition.

TEMPORARY HAND WASHING STATION

You must set up a temporary hand washing station for employees within the booth. The set-up shall include:

1. A container of warm water with a free-flowing spigot
Labeled "HAND WASH"
2. Paper towels
3. Liquid, dispensed hand soap
4. Wastepaper basket
5. A wastewater discard bucket

Each of these components **MUST** be present and set-up at all times. Hand sanitizer shall not be used in place of liquid soap. The use of hand sanitizers is not a substitute for proper hand washing.

Temporary Event Food Permit Application - 2026

THIS FORM MUST BE COMPLETED IN FULL AND SUBMITTED 14 DAYS PRIOR TO THE EVENT

INSTRUCTIONS: PLEASE READ ALL REQUIREMENTS & TYPE (OR) PRINT CLEARLY, INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED

PERSONAL HYGIENE

- Employees shall only consume food in designated areas away from food and food preparation areas. The use of tobacco in any form while preparing or serving food or while in the food booth is strictly prohibited.
- Employee hair must be restrained with a cap, hair net, or pulled back securely. Beards must be restrained with a beard restraint.
- Each employee shall wear clean clothes, aprons, etc.

WASH HANDS PRIOR TO HANDLING FOOD, AND ALWAYS:

- After using the restroom
- Upon entering the food booth
- Before using single use gloves
- After coughing, sneezing, eating, drinking, or using tobacco
- After working with raw foods
- During food preparation and between tasks as required
- Touching or engaging in any activity that may have contaminated your hands

PERSONAL HYGIENE

Three (3) containers must be set up at all times and be large enough to accommodate all food service equipment and utensils intended for use at the temporary event.

PROPER SET-UP OF TEMPORARY DISH WASHING STATION:

- WASH (clean warm soapy water) - MUST BE LABELED "WASH"
- RINSE (clean warm rinse water) - MUST BE LABELED "RINSE"
- SANITIZE (clean warm water and sanitizer) - MUST BE LABELED "SANITIZE"

All food service equipment shall be fully immersed for minimum of one minute in the sanitizer solution and allowed to air dry. All vendors shall maintain a supply of chemical test strips. Always measure the level of sanitizer by using chemical test strips to check the solution. Water shall be changed often.

SANITIZER OPTIONS:

- Chlorine Bleach - 50 to 100 ppm or per manufacturer's specifications (Add one (1) teaspoon Chlorine Bleach per gallon of water)
- Quaternary Ammonium - 200 to 400 ppm or per manufacturer's specifications
- **You must have either Chlorine (OR) Quat TEST STRIPS to check sanitizing agent levels available at all times of operation.**

An additional bucket shall be set up for the storage of wet wiping cloths in an approved sanitizer solution.

FOOD PREPARATION

To help us better understand your food operation and ensure that food safety is the priority, an explanation of how each menu item is prepared, transported, and stored, before and during the event is required.

Menu items are subject to the review and approval of the Health Inspector. The Health Inspector may also impose additional requirements to protect against health hazards and may prohibit the sale of some or all potentially hazardous foods.

Only those foods requiring limited preparation shall be prepared or served at the event. Complex preparation including the practice of cooling of potentially hazardous foods, shall be done in advance at an approved food service establishment in an approved manner.
