Village of Bridgeview, NPDES Permit No. ILR400301
Annual Facility Inspection Report - Supplemental Information
March 2025 to March 2025
October 9, 2026

Item A: Description of Changes to BMPs

The following changes have been made in Village BMPs for the next reporting cycle:

No changes this cycle. The Village last updated its Storm Water Management Program (SWMP) on 5/17/19 with some minor revisions and corrections.

**Item B: Status of compliance with permit conditions
and assessment of minimum control measures**

The Village believes that the BMPs completed within the reporting period are appropriate for the permit conditions. The status of each BMP is as follows:

A. Public Education and Outreach

1. A1: Distributed Paper Material (Newsletter)

The Village's Newsletter has been used to reach out to residents and businesses about a variety of topics (see enclosed samples). Articles or information appear several times throughout the cycle. Several sample newsletters are included highlighting village cleanup days. *Newsletters allow for "fair" access and are available to all in the community.*

2. A4: Community Events (Annual Cleanup Days)

The Village held its twice annual Village-Wide Cleanup Days in the Spring (April 26, 2025) and Fall (October 4, 2025). All residents can participate so this is offered "fairly" to all in the community. The next cleanup day is scheduled for April 18, 2026. See enclosed newsletter information. This BMP coincides with BMP B7.

3. A6: Other Public Education (Website and Facebook)

The Village Website and Facebook used to post information for Public Works throughout the reporting cycle (samples enclosed).

B. Public Participation and Involvement

4. B4: Public Hearing (Meeting)

The Village last held a informational Public Hearing during the previous reporting cycle on January 21, 2026. At this meeting the status of the Village's compliance with NPDES Phase II was reported. The next public meeting is planned for the next reporting cycle.

5. B7: Other Public Involvement (Annual Cleanup Day)

The Village held its twice annual Village-Wide Cleanup Days in the Spring (April 26, 2025) and Fall (October 4, 2025). All residents can participate so that this is community. The next cleanup day is scheduled for April 18, 2026. See enclosed newsletter information. This BMP coincides with BMP A4.

C. Illicit Discharge Detection and Elimination

6. C1: Storm Sewer Map Preparation

The Village has an up-to-date Storm Sewer Map on which the outfalls are numbered, and storm sewer sizes are included with lengths to scale. The map was updated during the reporting cycle and will be reviewed during the next for possible updates.

7. C2: Regulatory Control Program (Ordinance)

The Village has an ordinance (Article 13) related to Illicit Discharge Detection and Elimination and relies on a similar ordinance available from the Metropolitan Water Reclamation District of Greater Chicago (MWRD) for enforcement.

8. C7: Visual Dry Weather Screening

The Village completed dry weather Outfall Inspections of its outfalls during the reporting cycle in December 2025. No problem outfalls were reported. The inspections are planned for the next reporting cycle.

9. C10: Other Illicit Discharge Controls (Visual Monitoring Inspections)

Since the Village population is under 25,000, it has opted for visual monitoring of its upstream and downstream watercourse locations. Visual Monitoring Inspections at upstream and downstream locations were included with the outfall inspections in this reporting cycle. Monitoring is typically included during the outfall inspections and is again scheduled for the next reporting cycle. The goal is to conduct these inspections on an annual basis.

D. Construction Site Runoff Control

10. D1: Regulatory Control Program (Ordinance)

There have been no changes to the codes during this cycle, but the Village continues to enforce its regulatory control program for construction site runoff control. Village

Ordinance #6-19 provides for Erosion and Sediment Control. Also, Article 4 of the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1, 2014, is used to enforce soil erosion and sediment control requirements with development.

11. D2: Erosion and Sediment Control BMPs

Erosion and Sediment Control BMPs are required for all developments that exceed one acre in size.

12. D4: Site Plan Review Procedures

Development projects are reviewed under local and District ordinances by Village Staff and engineering consultants, especially regarding stormwater and erosion and sediment control measures. Projects over one acre are required to obtain a Notice of Intent prior to construction. A SWPPP is required with plan sets. Novotny Engineering performs Plan Reviews for the Village as they become necessary. The Village requires Weekly inspection reports from developers of active projects. The Village performs audit inspections as needed. The following plan reviews were conducted during the reporting cycle:

- None this reporting period.

13. D6: Site Inspection/Enforcement Procedures

Weekly inspection reports are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed. The Village performs audit inspections as needed.

E. Post-Construction Runoff Control

14. E2: Regulatory Control Program (Ordinance)

There have been no changes to the codes during this cycle, but the Village continues to enforce its regulatory control program for post construction runoff control. Village Ordinance #6-20 provides for Post Construction Storm Water Runoff Control. Also, Article 4 of the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1, 2014, is used to enforce soil erosion and sediment control requirements with development.

15. E3: Long Term O&M Procedures

These are required and reviewed where applicable during the site plan review process and implemented post construction. This promotes healthy natural vegetation and wetland plantings. There were no controlled burns in 2025.

16. E4: Pre-Construction Review of BMP Designs

The ordinance requirements are enforced during the site plan review stage of a development. The site plan reviews include a review of the BMP designs.

17. E5: Site Inspections During Construction

Weekly inspection reports are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed.

18. E6: Post-Construction Inspections

Stormwater management systems are inspected during the year depending on staff availability. Inspected storm sewers and structures that are found to need maintenance are cleaned, vacuumed, or jetted as needed.

F. Pollution Prevention and Good Housekeeping

19. F1: Employee Training Program

The goal is to conduct at least one training session per reporting cycle. The Public Works staff typically discusses proper procedures for salt storage and spreading, snow plowing, disposal of oil, and handling of solvents. Snow plowing, and deicing practices are reviewed annually. Training on snowplowing and salt spreading is typically conducted in November of each year.

20. F2: The Inspection and Maintenance Program

The inspection and maintenance programs include Routine maintenance of Village streets, storm sewers, ditches, and stormwater facilities as part of the Public Works responsibilities. This includes sweeping, vacuuming, jetting, repair, debris and branch and leaf collection, etc.

- Deicing materials are stored in a permanent facility.
- All fertilizers, pesticides, or other chemicals are stored indoors.

21. Street-sweeping was performed in April through October of the reporting period.

22. Catch Basins are cleaned yearly during the reporting period. The Village has cleaned the tops of all catch basins during street sweeping at least once during the reporting cycle.

23. Storm Sewers are inspected and cleaned on an as needed basis during the reporting cycle.

24. Snow Plowing and Deicing of roadways was conducted during the cold weather months. This is performed on a yearly basis.

25. Branch Chipper is used throughout the spring, summer and fall months throughout the Village on a yearly basis.

G. F3 and F4: Municipal Operations Storm Water Control and Waste Disposal

For Municipal Operations Storm Water Control, the Village completed in 2011 a SWPPP and Spill Response Plan for its Maintenance Yard and Operations. The plans did not require any updates during the reporting cycle.

22. F5: Flood Management/Assessment Guidelines

The Village code includes Flood Regulations which enforce floodplain and flood hazard regulations for any development in or near to floodplains. Reviews for such development are handled by Robinson Engineering.

Item C: Results of information collected and analyzed, monitoring data (if any).

No illicit discharges or incidents of non-compliance were identified. No chemical samples were taken.

The U.S. Census Bureau data for the Village of Bridgeview demographics is:

2020 Population Census	17,027
White alone, percent	62.0%
Black alone, percent	4.8%
American Indian and Alaska Native alone, percent	0.8%
Asian alone, percent	5.0%
Native Hawaiian and Other Pacific Islander alone, percent	0.00%
Two or More Races, percent	13.5%
Hispanic or Latino, percent	33.7%
White alone, not Hispanic or Latino, percent	55.4%

Item D: Summary of stormwater activities you plan to undertake during the next reporting cycle (and implementation schedule).

See the attached Summary that is numbered to correspond with the original Notice of Intent.

Item E: Notice that you are relying on another governmental entity to satisfy some of your permit obligations (if applicable).

Not applicable. The Village of Bridgeview does not rely on another governmental entity to satisfy NPDES permit obligations currently.

Item F: List of construction projects that your entity has paid for during the reporting period.

The following is a list of contracts that the Village let and constructed during this reporting period:

- 2025 Street Resurfacing

Sample Documentation for Minimum Control Measures

The remaining sheets in this report include some available documentation for various Best Management Practices discussed under Item B.

Bridgeview Seniors Enjoy Happy Holidays!

Clerk John Altar delivers a gift basket to a winner!

Park District Treasurer Mariam Ahmad (right) serves chicken to a happy resident.

The Argo High School Choir sings Christmas classics!

Seniors filled the Community Center with holiday cheer!

With it being 'the most wonderful time of the year,' on December 11th the Bridgeview Community Center was home to the cozy and festive Happy Holidays Senior Luncheon hosted by the Village of Bridgeview. Residents 55+ were immediately greeted by hundreds of holiday balloons, beautifully wrapped presents, and Christmas-themed lights that set the tone for wonderful festivities.

The spirit of giving was in full force. Three rounds of random prize giveaways delighted everyone throughout the afternoon, with Trustee Gary Lewis and Clerk John Altar delivering the holiday gifts to the lucky winners. Unwrapping the presents revealed chocolates, mugs, baking mixes, cookie kits, and other holiday treats that lit up the room in joy. When they weren't enjoying the surprise giveaways, seniors

dined on delicious food from Nikos, including mashed potatoes, beef, chicken, green beans, and mostaccioli. The holiday haul was surely enough to leave even Santa's belly full! Water, lemonade, and coffee were served at every table along with delicious cupcakes for dessert.

With lunch served, the musical entertainment began! the Argo High School Choir performed lovely renditions of "Rudolph, the Red-Nosed Reindeer," "Frosty

the Snowman," and many more classic songs that blew the crowd away, and the pianist kept all entertained during breaks.

The luncheon's outstanding singing, delicious food, and wonderful prizes brought the spirit of the holidays to life. The Village of Bridgeview thanks those who attended, the Argo High School choir, and all who made the Happy Holidays Luncheon the memorable time it was. Happy Holidays from the Village of Bridgeview!

IDFPR employees assist residents with their licensing issues.

Professional Licensing Assistance Comes to Bridgeview!

The Illinois Department of Financial and Professional Regulation (IDFPR), in partnership with State Senator Mike Porfirio, State Representative Angelica Guerrero-Cuellar, and State Representative Abdelnasser Rashid, brought the department’s services to the Bridgeview Community Center on Tuesday, December 17th from 3-6pm to provide in-person professional licensing application support to local residents. The IDFPR “serves as the regulatory backbone in the Land of Lincoln, licensing and regulating more than 1.2 million professionals across more than 100 various professions,” according to their website. Some of the many professionals required to register with the state include, architects, barbers, clinical and prescribing psychologists, marriage and family therapists, nail technicians, salon shop workers, pharmacists, physicians, social workers, registered nurses, and professional engineers.

Providing coffee and donuts, Sen.

Porfirio joined the IDFPR On The Road event to speak with residents and see the impact of the services firsthand. “It’s a good crowd here tonight,” said Senator Porfirio. “There are so many different people who need to get their professional licenses renewed, and this local event saves people the trouble of driving into Chicago or to Springfield to get in-person help. Online support is available, but the in-person support can really make things easier.”

Our Lyons Township Assessor, Patrick Hynes, even came to the event for assistance with his real estate appraisal licensing application. “I’m glad to see so many people like me making use of this convenient opportunity for licensing assistance.”

Whether people had questions about renewing their licenses or applying for the first time, the IDFPR assisted dozens of local professionals that run small businesses and provide services that make our everyday lives possible.

Sen. Mike Porfirio talks with residents about professional licensing.

Snow is Here, and So Are the Plows!

In order for the Village of Bridgeview to efficiently clean the roads, please don’t park on the Village streets when the forecast for snow exceeds 1 inch. That simple rule means NO Parking any cars or trucks on the street when snow is on the way. Please don’t fall asleep until you place all of your cars in your driveway. Cars on the street prevent the big plows from plowing snow and dropping salt as planned. Garbage/waste should also be kept out of the streets to

ensure that street sweepers and snow-plows won’t run into any objects as they do their vital work. There are many miles of streets to plow, and every delay means your neighbors on other streets are forced to wait a little longer.

Help Public Works keep our roads snow free and move your cars off the road for the big plows. A snow free road is a safer road for you and for our Village police, fire, and emergency crews.

Trustee Gary Lewis reminds you not to park on the streets when 1 or more inches of snowfall are expected.

Bridgeview Water Tower Gets New Trees

As part of the grant that paid for new trees around SeatGeek Stadium, 25 new trees have been planted by Openlands around the Bridgeview Water Department property bordering Thomas Avenue, 71st Street, and Beloit Avenue. Adding the greenery progresses the Village of Bridgeview’s goals of beau-

tifying our community and supporting the environment. The new trees may not look like much in the winter, but along with the native pollinator gardens planted around Village Hall’s sign and the entrance to SeatGeek Stadium, the spring will show just how green the Village of Bridgeview is.

Openlands plants a line of trees along 71st St.

Bridgeview Chamber of Commerce Delivers Holiday Donations!

Volunteers pack toys and nonperishable foods for distribution.

On Wednesday, December 5th the Bridgeview Chamber of Commerce collected and distributed items donated for their Food and Toy Drive. Along with Bridgeview's Village Hall, dozens of local businesses and organizations served as drop off locations for canned goods, dolls, toy cars, and more to make life a little better for those in need in our area.

More than 30 volunteers from various organizations worked out of the Bridgeview Community Center to organize donations, pack boxes, and transport the items to their destinations

within Bridgeview and nearby communities. St. Fabian, Catholic Charities - St. Blase, Mosque Foundation, AAFS, Summit Senior Group, and School District 109 each received donations to be shared with community members. This important work provided meals and gifts to families during the holiday season.

The Village of Bridgeview appreciates the efforts of the Bridgeview Chamber of Commerce and all who made the Food and Toy Drive possible, and the Village looks forward to supporting this event again in the future.

Heating Your Home Safely

Residents should keep the following tips in mind through the cold winter months:

- Never use your oven for heat.
- Never bring charcoal or gas grills indoors (they are a carbon monoxide hazard).
- Make sure all portable heaters are unplugged when not in use.
- Use electric space heaters with extreme caution – avoid placing them near curtains or other flammable materials and turn them off before going to bed.
- Keep heat at adequate levels or leave faucets open with a slight drip to prevent pipes from freezing.
- Keep moving. Your body generates its

Unplug space heaters when not in use and avoid plugging in multiple devices to one outlet to avoid electrical fires.

own heat when you engage in physical activities.

When temperatures in Cook County are expected to dip to unsafe levels, the County's Department of Emergency Management and Regional Security provides an updated list of warming centers for residents to protect themselves and their families. Residents who

need to seek shelter at a warming center should contact the center first to verify availability and hours of operation. The warming center nearest to Bridgeview is the Louis S. Viverito Senior Center located at 7745 Leamington Avenue, Burbank. Its phone number is (708) 636-8850.

Park District Commissioners Ken Pannaralla, Mariam Ahmad, and Justin Willis pull the string to drop the balloons with Village Clerk John Altar!

Residents celebrated the Noon Year in style!

Seniors Celebrate the Noon Year at the Park District!

One hundred Bridgeview seniors 55+ joyfully rung in the New Year at the Bridgeview Park District's annual Noon Year's Eve Party on Monday, December 30th. The celebration kicked off with free noisemakers, festive hats, and tiaras to help get everyone in a celebratory Noon Year's mood. With attendees dressed and ready for the occasion, they gathered in the center of the gym for the countdown and mini balloon drop. The announcer counted down from ten as excitement filled the room, and at 12 p.m. exactly, Bridgeview Park District Vice President Ken Pannaralla, Treasurer Mariam Ah-

mad, Secretary Justin Willis, and Village Clerk John Altar pulled the string to release the gold and red balloons that cascaded down on the crowd. Noisemakers and cheers echoed through the room as everyone celebrated the change of one year into another.

"It's great to foster a sense of community with an accessible New Year's party," explained Vice President Pannaralla. "The seniors in the area really look forward to the programming the Bridgeview Park District provides," added Treasurer Ahmad.

After the balloon drop, the fun game

of attention and chance—Bingo—began in full. Attendees stamped their bingo cards as numbers were read aloud, with everyone hoping to be the first prize winner. It wasn't long before a shout of "Bingo!" echoed through the gym, and a woman happily picked out her prize cup with a gift card inside.

Delicious food from the Bridgeview Culver's arrived, and residents cheerfully dined on chicken tenders, broccoli, mashed potatoes, and chocolate or vanilla custard. After a tasty lunch, a representative from Oak St. Health gave out a foot massager as a raffle prize to a

lucky resident to kick off the new year. The "left/right game" then captured everyone's attention as residents listened closely to the story and passed gift bags to the person sitting to their left or right. When the game finished, residents opened their bags to reveal 2025 calendars, planners, mugs, calendars, or puzzles!

Residents at the Noon Year's Eve Party celebrated another rotation around the earth and the potential of 2025 in a festive atmosphere filled with fun activities, great food, and good cheer to start the new year off right.

Adults play a safe walking rugby match.
